

PNEUMATIC XL CORE CUTTER [KGP-XL]

Power supply	3 x 400 V
Power consumption	1,5 kW
Air pressure	max 8 bar
Width	1000 mm
Length	1800 mm
Height	1500 mm
Weight	200 kg
The internal diameter of the cores	152-600 mm
Assembly of the core	Manual
Thickness of the wall	Up to 12 mm
The standard length of the thimble	1500 mm
The minimum length of the cut	10 mm
Regulation of the rotational speed of the core	Inverter

The applied technological solution allows to cut the core in the given range without the need to change the machine.

MADE IN POLAND

Warranty	1 year
Documentation	Manual in English CE marking Declaration of conformity EC
Description of the desktop	English
Production time	8 weeks

Operation of the machine shows the video located at:
